

ONLINE COURSE OVERVIEW

This online WHMIS 2015 course aims to prevent workplace injuries, diseases, and deaths resulting from the storage and use of hazardous products. This course implements the Globally Harmonized System of Classification and Labelling of Chemicals (GHS) standard for hazard classification and communication.

COURSE TOPICS:

- Physical and health hazards
- Precautionary measures to protect your health and safety
- How to choose appropriate personal protective equipment
- WHMIS 2015 hazard classifications
- Hazard and safety information found on WHMIS 2015 labels
- WHMIS 2015 symbols and pictograms
- Information contained on safety data sheets
- Worker rights and employer responsibilities under WHMIS 2015
- The importance of education and training

COURSE DURATION: Approximately 2 hours

COMPETENCY EXAM: A mark of 80% must be achieved in order to receive a certificate of completion. Participants are able to repeat the course two times if the pass mark is not achieved on the first attempt.

CERTIFICATE: Upon successful completion of this online course, a certificate will be available to download and print.
