

Meet Your Instructors

Kevin Swinden

WHMIS | TDG | IATA/ICAO | IMDG | 49CFR | HAZWASTE | HAZCOM 2012 (GHS) | SPILL RESPONSE

In the 18 years of being involved in the Transportation of Dangerous Goods, HazWaste, and Safety Industries Kevin has realized one thing: "Proper training leads to real compliance".

"My passion is to educate, train and transform how companies comply with regulations so that it saves corporations and businesses money. I do this through fun, interactive and engaging trainings – whether we do them for 1/2 day, full day or multiple days, my intention is to make safety, HazMat and TDG training exciting in the not so exciting world of regulations and laws. "

Alex Johnston

WHMIS | TDG

Alex has a background in law enforcement through which he gained experience working with, and interpreting, federal regulations. He has carried this experience into the area of compliance training focusing in the areas of TDG, WHMIS, and Spill Response. He lives in the Okanagan with his wife and family.

Mike Bolam

WHMIS | SPILL RESPONSE

Mike joins our family here at Global HazMat and brings years of experience in Spill Response training and WHMIS. He is a long standing member with the Burnaby Fire Department, having served with the department as a lead trainer in Hazardous Spill Response.
