Important Safety Update

Are you aware of the updated **WorkSafeBC** Regulations related to emergency planning for hazardous substances?

As of February 3, 2025, amendments to Part 5 of the **Occupational Health and Safety Regulation** relating to emergency planning for hazardous substances are in effect.

Global Hazmat can offer:

- An assessment and gap analysis of the hazardous chemicals in your workplace.
- A detailed inventory, including implementing a chemical management system.
- Manage your Safety Data Sheets (**SDS**).
- Develop and implement emergency and chemical spill plans.
- Provide compliant hands-on training related to hazardous chemicals.
